THE REVISED GOLF RULES.

INTERPRETATIONS ON THE NEW ST ANDREWS CODE BY THE U. S. G. A.

the Club on Turf in a Hazard-A Defini-

tion of Bogey Competitions - About the Fox Hills Links on Staten Island. Printer's proofs of the revised St. Andrews rules, which are now in force to govern the game in this country, were struck off yesterday and sent out to the Executive Committee by R. Bage Kerr, the U. S. G. A. secretary, They contained the interpretations made to suit the game in this country by the committee, Messrs, Curtis, Macdonald and Coats, The one fault, if one may be found in the revised rules, is that while condensing the old rules the new code is still too verbose. The commost instances it has succeeded in so doing. Taking up the first of the new rules, concerning the definition of the game, the committee has pointed out the difference between match and medal play, and then the official definition of bogey play is furnished in these terms:

"Col. Bogey" is an imaginary opponent, against whose arbitrary score each competitor plays by

where it lay, but not nearer the hole.

Rule 13, concerning the play at a ball in a hazard, follows the penalties imposed in the revised code, in match-play loss of the hole, in medal play loss of two strokes. It is by this interpretation no longer permissible to ground the club on turf in a hazard. That there may be no doubt on this question, the rule and the

De no doubt on this question, the rule and the U.S. G. A. ruling are printed:

13. When a ball lies in or touches a hazard, nothing shall be done to improve its lie; the club shall not touch the ground, nor shall anything be touched or moved before the player strikes at the ball, subject to the following exceptions: (1) The player may place his feet firmly on the ground for the purpose of addressing the ball; (2) In addressing the ball or in the upward or downward swing, any grass, bent, while, or other growing substance, at the side of a bunker, wall, paling, or other minovable obstacle may be touched; (3) Steps or plants placed in a hazard by the Green Committee for access to or egress from such hazard may be replaced without penalty; (4) any loose impediments may be removed from the putting-green; (5) The player shall be entitled to find his ball as provided for by Rule 80. The penalty for a breach of this rule shall be the loss of the hole. Penalty—in match play, loss of the hole. In medal play, two strokes,

An addendum to Rule 15 is that if the water in G. A. ruling are printed:

An addendum to Rule 15 is that if the water in a recognized water hazard overflow its usual boundaries the overflowed portion of the course shall be considered as part of the course shall be considered as part of the hazard, and not as easual water.

Under Rule 18, if a ball be not dropped in accordance with the rule, the U. S. G. A. decides that at match play the opponent may call for the player to drop again; if the request be not compiled with, the player shall lose the hole, but in medal play the ball must be dropped again or the competitor be discountified.

feature was a six furlong handicap and it requilified.

In the other rules the penalties follow those of the revised code, the interpretations being mostly of the explanatory order. No new rules are framed to cover points omitted in the revised code, as in regard to taking mud off a ball in play. Such matters, in the proper spirit of the game, are left at match play to the mutual understanding between the competitors. A point changed in medal play is that hereafter on the morning of a stroke competition a player may not play onto the putting green. Formerly, so that he did not practise putting or hole out, a player might play approach shots to the putting green.

First Race—Three-year olds and upward; one mile—The Sluggard, 100 (McJoynt), 9 to 6 and 1 to 2.

Rumors are active in golfing circles concerning the future of the Fox Hills links, laid out last season by the Staten Island Baseball and Cricket Club. The club is now in financial difficulties and it seems doubtful if the course will be reopened under the former management. The New York A. C. was for a time a bidder for the grounds on the lease, but this project has fallen through from the disinclination of the Executive Committee to undertake the control of three clubhouses, which is what the new move would mean. Moreover, the New York A. C. believes that when the new move would mean. Moreover, the new public links is laid out on Hunter's Island its members will have ample facilities for golf on the public course. Another and more tangible project for the future of the Fox Hills course is the offer from two well-known amateurs to the Staten Island Cricket and Baseball Club to lease the links and conduct it as a public course, open to all who care to play at a fixed rate each day. If this offer is accepted, the promoters will maintain the club as a proprietary one, and the idea will be to make the place an attractive resort for the holiday-seeking golfer who may or may not be a member of a regulative conducted club.

Nassau, March 1.—The annual golf tournament opened here to-day under favorable auspices. There were thirty entries to qualify for first and second divisions. The links are in fair condition. The first eight were S. S. Laroque, G. McK. Brown, E. C. Crocker and Messrs, Bullard, Brigham, Taylor, Boise and Gross, The second eight were Messrs, C. T. Garland, L. R. Marshall, Smith, Schenck, Johnson and Gray, The latter won the Qualification sup.

Mismi, March I.—A well-contested foursome was played on the links of the Country Club here to-day, in which Miss Florence Stoddard and W. V. Hoare defeated Miss Pauline Platt and J. W. Stoddard by 2 up and I to play, after allowing seven bisque to their opponents. All are members of the Dayton Golf Club. Miss Stoddard did fine execution on the greens. E. F. Southerland of Lakewood defeated H. L. Harmon of the Kansas City Country Club in a match over eighteen holes. George D. Hunting defeated Mrs. H. L. Harmon in a similar match by 1 up.

St. Augustine, March 1.—In the semi-finals of the handicap tournament played on the links of the St. Augustine Golf Club this morning, Watson, Jr., beat Molain by 5 up and 3 to play, and Sumner beat Dulle by 5 up and 3 to play. In the final Watson, Jr., beat Sumner by 3 up and 2 to play, winning the Warden cup, Sumner captured the runner up cup. In the final for the Consolation cup Scott beat MacComas 5 down. A two days' tournament will begin on the links of the St. Augustine club tomorrow morning for five handsome cups. morrow morning for five handsome cups.

JACESONVILLE, March 1.—Much interest was excited to-night at the St. James Hotel here by the visiting golf experts, by the arrival of Harry Vardon, the English champion, from his victories down the East coast. He is on his way tories down the East coast. He is on his way to New York, stopping on the way in the Caroinas for a week or so. Vardon was rather reticent as to the contests at St. Augustine and other points, but confessed that he was new to "sandy" links, and that was something that he could not master in a few days. As a whole he thought the links at St. Augustine, Palm Beach and Tampa compared favorably with those at many Northern points. He had met good players, and above all he expressed himself as Stably pleased over the sportsmanlike spirit in which his orponents met him. He was treated royally and had enjoyed his trip well.

the Pleasure Drivers' Association of Brooklyn called upon Park Commissioner Brower yesterlay at his office in the Municipal Building in elation to the proposed Brooklyn Speedway, The latter told the committee of his interest in the matter and said that he would ascertain in the matter and said that he would ascertain its cost through the estimates of the Fark Department. He further stated that as quickly as the money available for the purpose could be procured he would have the department engineers prepare plans for the proposed driveway. The road will run from Lighteenth avenue to the Kings Highway, and the natural advantages of the site will make it cheap to construct and lasting in its wear. The new method of crude petroleum to sprinkle it may be tried. It is said to make the road waterproof and dustiess and that it is made decidedly more wearable than by the usual methods employed.

When his ball is lost;
When his ball is not played where it lies except as otherwise provided for in the rules.

This brief synopsis takes the place of a code of some twenty rules recently promulgated by a London golf paper. Nothing in regard to this form of competition is mentioned in the revised St. Andrews rules.

In regard to Section E of the first rule, defining a hazard, the U.S. G. A. rules that "any permanent obstruction of the course shall be a hazard."

The addendum to Rule 2 is that the penalty for playing a ball outside of the limits of the teering ground is that in match play the ball may be at once recalled by the opponents, no stroke being counted for the misplay, but in medal play it entails disqualification.

The addendum to Rule 3 is that if the ball move while the player is making his upward or downward swing a penalty is only incurred if the player is deemed to have caused it to move, in which case the penalty shall be the loss of a stroke either at match or medal play.

Rule 10, regarding the movement of any loose impediment, is softened in the interpretation to the loss of one stroke at either match or medal play, instead of loss of hole for the first, or of two strokes in the second instance, but if through the green, if the loose impediment is more than a club's length from the ball, the penalties follow the revised code.

An exception to Rule 11 is that if a ball lie on or within a club length of a drain cover, water pipe or hydrant, it may be lifted and dropped without penalty as near as possible to the place.

Rule 13, concerning the play at a ball in a hazard, follows the penalties imposed in the revised code, in match-play loss of the hole, in medal play loss of two strokes. It is by this interpretation no longer permissible to ground.

Turf and Field Club Elects Officers. The annual meeting of the Turf and Field Club was held yesterday afternoon at the office of the organization, 173 Fifth avenue. The officers elected for the ensuing year were: President, Perry Belmont; Vice-President, S. Howland Robbins; Secretary, Amos T. French; Treasurer, Francis R. Appleton. The Board of Governors was redicated.

The hockey team of the New York Boys' High School met the Erasmus Hall High School seven of Flatbush at the Clermont Avenue Ice Skating Rink in Brooklyn yesterday afternoon directly after the trial heats of the Long Island Interscholastic skating races. It was the Manhattan schoolboys first appear-ance on the Brooklyn ice, and they showed up well, gaining a victory over the Erasmus team well, gaining a victory over the Frashus team by 2 goals to 1.

The Heffley School of Commerce team of Brooklyn added fresh laurels to its list of tri-umphs last night at the Clermont Avenue Ice Skating Rink in Brooklyn, where the team played the "Poly Prep" School, champions of the Long Island Interscholastic Athletic League. The score: "Poly Prep" 1; Huffley, 4.

In the presence of a large crowd at the St. Nicholas Skating Rink last night the local hookey team was played to a standstill by the Hockey Club of New York. It was a contest signalized by science, speed and a spice of roughness, and the St. Nicholas boys, although beaten, were by no means disgraced. Russell roughness, and the St. Nicholas boys, although beaten, were by no means disgraced. Russell and Phillips of the winning team monopolized all the glory as far as seering went, the former shooting four goals and Phillips one. The home team made repeated dashes but with no success, and after two twenty-minute halves the game was called, but on favor of the Hockey Club of New York. But for Haywood's clever goal keeping for St. Nicholas the score might have been much more lop-sided, as several substitutes had to be called in and their rivals naturally outclassed them on team work. them on team work.

Billiards.

Charles, brother of Jacob, Schaefer and John Daly have entered the three-cushion carrom billiard tournament for the championship, which will begin in Chicago next Monday. It has been agreed to make the games 50 points instead of 100. Jake Schaefer, Carter, Capron, Sutton and Jevne are the other entries,

IN THE BASEBALL WORLD. WILL FREEDMAN PAY \$18,000 FOR

M'GRAW AND ROBINSONY ocal Cranks Aroused, but the Players Have Not Been Secured Yet-More Facts About the Syndicates-Johnson's Unap-

preciated Loyalty-Buck Ewing Anxious. The report from Baltimore that McGraw and Robinson are to be transferred to the New York Baseball Club when the League Circuit has been reduced to eight clubs, in exchange for a cash bonus of \$15,000 to be paid by Freedbefore the meeting will be one for three-year- man, has aroused local baseball enthusiasts who are anxious to have a winner at the Polo Grounds, regardless of the magnates' squabbles. While Hanlon, McGraw and Robinson have positively denied the statement many persons are inclined to believe that it is true. It must not be forgot-ten, however, that Freedman made a statean injury than a help to the horse-breeding ment recently that he would not engage McGraw, Robinson or any other member of the Baltimore team under any circumsame time that he did not care to have any dealings with the owners of the Brooklyn-Baltimore syndicate, against whom he has led a series of attacks that have been surprisingly vindictive. Those who know Freedman say that it is not his policy to buy ballplayers and they point to the fact that he has put out very little money for new men since he took hold of the New Yorks in 1895. An outlay of \$15,000 for McGraw and Robinson, while undoubtedly a good investment, would not provide New Yorkers with what Freedman has promised. a team capable of winning the championship. The New Yorks need three heavy-hitting outfielders, an extra infielder, besides a third baseman and two first-class right-handed pitchers. It will cost Freedman considerably more than \$15,000 to secure the necessary talent, but his friends in the League say that he has pledged his word to spend a barrel of money for a great ball team when his demands have been acceded to. The situation appears to be grad-ually leading up to Freedman.

Here are a few more interesting facts about syndicate ownership in the National League which involve the following magnates:
John T. Brush owns the Cincinnati club of the National League, the Indianapolis club of the National League, the Indianapolis club of the American League, holds stock in the New York club and has been accused of being Robison's backer in the St. Louis club.

A. H. Soden owns a third of the Boston club, is the principal minority stockholder in the New York club and is said to be the real owner of the Worcester club of the Eastern League, which is ostensibly controlled by Soden's manager. Frank Solee.

F. A. Abell holds 40 per cent. of the stock in the Brooklyn and Baltimore clubs, is also a minority stockholder in the New York club, thereby being financially interested in three National League clubs at the same time.

Frank De Hass Robisen holds a majority of stock in the St. Louis club and is also the owner of the Cleveland club, both of the National League.

H. W. York der Herst owns 40 per cent. of the

H. R. Von der Horst owns 40 per cent. of the stock in the Brooklyn and Baltimore clubs.

Edward Hanlon and C. H. Ebbets each holds 10 per cent. of the stock in the Brooklyn and Baltimore clubs. 10 per cent, of the stock in the Brooklyn and Baltimore clubs.

A. G. Spalding owns a big block of Chicago club stock and is believed to still hold a fow shares of New York club stock.

Every vestige of the so-called syndicate evil can be wiped out if certain magnates are sincere. By reducing the circuit to eight clubs Robison's Cleveland stock and the Baltimore holdings of Von der Horst, Abell, Hanlon and Ebbets will be wiped out. Freedman can rid the New York club of Soden, Brush, Abell and Spalding by purchasing their stock, while Brush owes it to the public to prove conclusively that he is in no way connected with the affairs of the St. Louis club. Bluff sales, of course, do not count.

As The Sun predicted, Ban Johnson, President of the American League, has received from the National League magnates what is known as "The Kiondike." He has been politely informed that the American League cannot league a club in Chicago under the management of Charley Comiskey or anybody else without bringing on a baseball war. Johnson has maintained for several months that he received from Hart, the President of the Chicago League club permission to invade the Windy City, and also that by other prominent magnates he was positively assured that Hart's promise would be kept. Now, however, Hart says he never made any such promise and he is backed up by the other meguls. Brush and Soden say that Johnson was laboring under an unfortunate delusion, while the other magnates simply laugh. Johnson's loyalty, therefore, to the National agreement while the New American Association promoters were at work, has not been appreciated. But the President of the American League should have remembered that a written pledge signed by every club President in the National League at the St. Louis meeting in 1858 was violated by a majority of them in short order.

Buck Ewing, the prospective manager of the New Yorks, is on the anxious seat these days. Buck is in Cincinnati waiting to hear some word from Freedman. He is not in layor of having McGraw come here for he feels that the latter would soon assume the management of the local team. Ewing has not signed a contract with the New York club and consequently does not believe it is policy to talk of the weak spots in the team, but he says, nevertheless, that he will not undertake the management unless his ideas are respected. Ewing knows that no manager can make a success if he is hampered by meddlesome magnates.

in the American League. DETROIT, March 1.-President Ban Johnson of the American Baseball League left town today filled with resentment toward Vanderbeck. the local magnate, who has so complicated matters that the sale of his team cannot be consummated. Before going, Johnson said that if the matter was not straightened out by the first of next week he would take away the Detroit franchise and give it to Louisville. His order to Stailings to sign a team for Detroit has been recalled. He must consult the other members of the League before he could act, hence the withdrawal. He says the League directors will approve his plan to take the team to Louisville.

Mike Grady Signs a Contract.

Mike Grady, the well-known catcher of the New York team, has signed a contract for the ensuing season. Grady has recovered from the injury to his ankie received last fall.

NEWS OF THE WHEELMEN. The L. A. W. Begins Sidepath Work ! Earnest.

On Wednesday night the representatives of the second and third districts in the New York Division of the L. A. W. were invited to meet at the Grand Union Hotel for the purpose of formulating plans for better local organization. It was uncertain what would be accomplished and reporters were not invited. If the full significance of what was done was heralded far and wide it would have been better. There were present besides Chief Consul Belding. Secretary-Treasurer W. S. Bull, H. C. Ackerly, Paul P. J. Donvan, F. M. Frobisher, Dr. L. C. Le Roy, C. J. Obermayer, George C. Pennell, Dr. H. G. Piffard, I. B. Potter, James A. to get a good idea of the many surprising Rooney, J. A. Stivers, J. B. Uhle and H. C. White. | features arranged in the big ampitheatre that I. Potter was elected Chairman and William S. Bull, Secretary. The distinguishing feature of the meeting was the unalloyed interest in sidepaths and good roads. An informal discussion was held and a local consulate planned. Plans and suggestions for the future work of the consulate were outlined. It was the opinion that more attention should be given to the sidepath movement, but not at the expense of the good-roads work so long carried on by the L. A. W. It has been found by actual experience that where cycle paths have been constructed they act as object lessons in favor of improved highways. It was urged that the local consulate for Greater New York should take an guides in the Adirondack exhibit were enactive interest in the construction of trunk line cycle paths in this State, with a view toward securing ultimately continuous paths from New York to Chicago. The suggestion was made that a more general interest might be aroused in the construction of trunk line eycle paths if a meeting of all the consulates in the State was held in New York city, on invitation of the Greater New York Consulate. The local work of the consulate was discussed, in-cluding the urgent need of a more vigorous enforcement of the rules of the road by the city authorities. The following motions were

Adopted:

Resolved. That this meeting requests the Chief Consul to at once call a meeting of those members of the L.A. W. who have been appointed to act as consuls in Greater New York, the time and place of the meeting to be fixed by the Chief Consul.

Resolved. That a committee be appointed to out line applan of work to be submitted to the meeting of consuls.

A committee to consist of the Chief Consul, the Secretary-Treasurer, Dr. L. C. Le Roy, George C. Pennell, Isaac B. Potter and James Roonev was appointed.

Chief Consul Belding announced that the meeting of the consuls for Greater New York will be held at the Grand Union Hotel, corner Fourth avenue and Forty-second street, New York, on Wednesday evening, March 14, at 8 o clock.

York, on Wednesday evening, March 14, at 8 o clock.

The reaction of the L. A. W. in this State since racing was dropped has been elastic in its character. Only those who have watched the organization through its fight for racing control can realize the net efforts now being made. The officers have no longer over them a regard for political preference on the ground of patronage. The patronage of the L. A. W. was in its racing department. It is dead, Now the officers of the different divisions may appear in their true characters and shout for sidepaths or good roads without considering whether or not it is "politic" to do so. In consequence there is an unwonted spirit of enthusiasm abroad. First of all it is directed toward a trunk line of cycle paths. The bare report of the meeting held on Wednesday night does not tell the story. The Secretary-Treasurer of the division in this State has for several months been at work compiling a map and kindred information on the paths existent and proposed. By the end of the month he expects to be able to furnish to L. A. W. members an outline of all the paths in the State. The ultimate purpose of this information is more important than the proximate one mentioned. With the information at hand concerning all paths, it will be easy to discover what gaps exist in the plan for a trunk path between New York and Binfalo and from there to Chicago. Having listed the lanses in the sidepaths the L. A. W. workers will focus their energies toward having them filled and the complete connection made between the metropolis and the big city of the lakes.

In the latest issue of the supplement to the L. A. W. Mulletin appears the following:

In the latest issue of the supplement to the I. A. W. Bulletin appears the following: In A. W. Bulletin appears the following:
Notice is now given that at the next regular meeting of the State Board of Officers of the New York State Division I shall move the following amendments to the by-laws of said division:
Art. II., Sect. 3. Strike out the words "Three Thousand: and insert instead thereof the words "One Thousand": also strike out the words "lwo Thousand": also strike out the words "lwo Thousand": also strike out fifty."
I shad B. POTTER. ISAAC B. POTTER.

The amendments deal firstly with bond required of the Secretary-Treasurer, and secondly, with his salary. The proposition is to reduce each to one-third of what it is now. Isaac Fotter was the one to propose the rule of making the office of Secretary-Treasurer a making the office of Secretary-Treasurer a permanent one at \$2,500 a year, because the work was onerous and the best interests of the League required it. W. S. Bull then was Secretary, as he is now, and I. B. Potter was Chief Consul, seeking the presidency. Recently, George R. Bidwell, Collector of the Port, gave to Secretary-Treasurer Bull a letter concerning his candidacy for President of the L. A. W. that controverted certain statements made by Potter. This caused a falling out between Potter and Bull.

SEAWANHAKA'S FIRST DINNER. on the East Side.

The Seawanhaka-Corinthian Yacht Club be ng for the time being without a winter club-

house, the Entertainment Committee, which consists of Jacob Wendell, Jr., chairman, Nelson B. Burrand Elijah Woodward, has arranged to give a series of informal dinners during the season for the purpose of bringing the club members together. Last night the first of these dinners was in order, and in response to the notification of the committee about one hundred members gathered at the Café Liberty. 'Little Hungary." 257 East Houston street "Little Hungary." 27 East Houston street, and sat down to one of Herr Schwartz's feasts. Doubtless many of the members present had never dined in that neighborhood, although they have heard of "Liberty Hall," but the wording of the notice which said "The committee while promising nothing feels justifled in advising you to be there," whetted their appetites and the result was a fine gathering of amateur tars. appetites and the result was a fine gathering of amateur tars.

There was no special entertainment provided, but the Hungarian Band was on hand and the company pronounced the first dinner of the season a big success. Commodore Ferey Chubb presided. There were no set speeches, but many of the diners were called upon for remarks. The old members of the organization were there in force. Among the gathering were John Hyslop, Walter T. Owen, W. R. T. Jones, Oliver Livingston Jones, Gordon Wendell, E. M. Townsend, Jr., F. P. Moore and George Moore.

SPORTSMEN IN THE GARDEN

THE SIXTH ANNUAL SHOW ATTRACTS THOUSANDS OF VISITORS.

New Features Not Seen Here Before-Hard Water Polo Game Won by Lone Stars -Heikes in the Lead at Shooting-Schoolboy Swan Wins a Swimming Race.

Sportsmen of every kind flocked to Madison Square Garden last night to participate in the opening of the sixth annual exposition of the Sportsmen's Association. The crowd outside the building was so large that the doors were thrown open half an hour before the advertised time. The early arrivals were able served to transform it into a presentable cornterfeit of a fine forest. Hidden away among the countless trees that stood on floor and galleries were trophies of the chase and specimens of big game that brought a flood of reminiscences to the old hunters, whose picturesque flaures heightened the natural effect of Black bears appeared in abundance, and

one innovation was a pole raised at the en-trance on which bruin disported himself to the amusement of the crowd, which numbered at least 7,000. Moose, elk and buffalo all had their circle of admirers, while the veteran gaged all the time spinning yarns and renewing acquaintances begun in the dense forests The Indian village at the Fourth avenue end of the building was ready for the occupation of the dusky redskins, but they kept in the background last night, and their reservation was made the rendezvous for a horde of almost as swarthy oarsmen who took part in the initial water polo game.

Many new features are included in this year's show, the most noticeable being an additional camp at the western end of the artificial lake, where a large assortment of canoes and sail-boats are on exhibition. An ice yacht from the Shrewsbury River also attracted considerable

where a large assortment of canoes and sailboats are on exhibition. An ice yacht from the Shrewsbury liver also attracted considerable attention.

While the aquatic programme was being run off there was a stampede of spectators caused by the water in the largest aquaria tank breaking its bounds and finding its level on the dirt floor, immersing the shoes of persons in the immediate vicinity. Splashing around the legs of the spectators for awhile were a score or so of brown tront temporarily released from bondage. They were quickly angled for and placed in other tanks until their oid home was made secure.

A practical illustration of duck shooting furnished a surprise for the majority of spectators who had not discerned a brace of dead canvass backs suspended by a string from the roof girders. After the sportsman had laid his covey of decoys in the water, he covered his boat with imitation grass and, lying on his back, fired both barrels at the feathered game. Some one pulled a string and one of the dead ducks dropped with a splash into the pool.

This realistic exhibition was followed by a fifty-yard swimming race open to schoolboys, in which W. W. Swan of Woodbridge School carried off the honors. After the trial heats of a candle race, teams of the Union and Lone Star Boat clubs lined up for the water pologame. The men were well matched. The Unions were faster swimmers, but did not show off as well in tacking or passing as their rivals. Haines of the Unions reached the ball first, but the side soon lost it and a scrimmage took place in front of their goal, Hiertberg captured the suber and saved the situation for the moment. A rapid movement was then made on the Lone Star goal, but was cleverly blocked by the wary keepers. Several tussels took place in quick succession, in which one of the Union men had his Jersey torn off. After 3 minutes and 49 seconds of hard playing the Lone Star forwards rushed the bining captured the subron and a first was ceverly biocked by the wary keepers. Several tussels took place in line-up follows:

Tom O'Rourke's Reply to Frank Childs's Challenge.

The challenge of Frank Childs, the colored heavyweight of Chicago, and the fact that the latter had posted a forfeit to meet Joe the latter had posted a forfeit to meet Joe Walcott prompted Tem O'Rourke yesterday to make the following statement:

"Childs has no reputation to speak of, but Walcott will take him on in a six-round bout at Chicago if any of the clubs out there will give enough money. Walcott is a good drawing eard now and in a position to dictate terms. If he cannot get what is just, why Joe wont tackle him."

Childs is the boxer who knocked out big Bob Armstrong on two occasions, and is a heavy hitter.
